KVK Training Programmes in July, 2023 A number of training programmes for farmers and farm women will be held during July, 2023 by Directorate of Extension Education. The details of these programmes are given below. Please contact the respective Training Centre of PAU for more information.

Inly 03: Improved cultivation technologies of fruitcrops Inly 04: Nutritional recipes for youngchildren and pregnant/ lactatingwomen Inly 07: Integrated Pest Management in <i>kharif</i> crops withspecial emphasisonbiologicalandnon-chemicalmethods Inly 10: 11: Techniques of harvesting and packing of pear toreduce post-harvestlosses Inly 13: Techniques of harvesting and packing of pear toreduce post-harvestlosses Inly 14: Techniques of harvesting and packing of pear toreduce post-harvestlosses Inly 15: Techniques of harvesting and packing of pear toreduce post-harvestlosses Inly 16: Personal hygiene and nutrition for adolescent girls Inly 04: Raising of winter season annual flowers Inly 05: 13: Dairy Farming Inly 04: Raising of winter season annual flowers Inly 05: 13: Dairy Farming Inly 10: 10: Preparation of value added products using waste material and painting techniques Inly 11: Appsy seder technology for Crop Residue Management Inly 12: Balanced feeding of dairy animals and prevention of zoonotic diseases Inly 13: Integrated Pest and Disease Management Inly 12: Balanced feeding of fairy animals and prevention of zoonotic diseases Inly 36: Prevention and control of endo and ectoparasites in dairy animals Inly 26: Prevention and control of endo and ectoparasites in orchard Inly 27: Value addition to horticultural crops Inly 37: Value addition to horticultural crops Inly 40: Brhancement of mutritin in dairy ration Inly 40: Brhancement of mutritin deficiencies in <i>kharif</i> crops Inly 40: Integrated Farming System Inly 41: District Farming System Inly 41: District Farming System Inly 42: Integrated Farming System Inly 44: Exticate Farming System Inly 44: Exticate Farming System Inly 44: Exticate Farming System Inly 44: Prevention and control of endo Integrated Farming System Inly 44: Prevention of acticultural machinery Inly 44: Prevention and control of endo Integrated Farming System Inly 44: Exticate Farming System Inly 44: Exticate Farming System Inly 44: Pretricture and control of endo Integrated Farming System Inly	KVK, AMRITSAR (98723-54170)
Iniy 44: Nutritional recipes for youngchildren and pregnant/ lactatingwomen Iniy 07: Integrated Pest Management in <i>khariferops</i> withspecial emphasisonbiologicalandnon-chemicalmethods Iniy 10: 18: Protonal hygiene and nutrition for adolescent girls Iniy 20: Communication skills for transfer of technology Iniy 03: Communication skills for transfer of technology Iniy 04: Raising of winter season annual flowers Iniy 05: Communication skills for transfer of technology Iniy 04: Raising of winter season annual flowers Iniy 05: Organic Farming Iniy 07: Organic Farming Iniy 10: Inite Preparation of value added products using waste material and painting techniques Iniy 11: Happy seeder technology for Crop Residue Management Iniy 12: Balanced feeding of dairy animals and prevention of zoonotic diseases Iniy 11: Balanced feeding of dairy animals and prevention of zoonotic diseases Iniy 12: Prevention and control of endo and ectoparasites in dairy animals Iniy 25: Improved cultivation of fruit crops Iniy 26: Prevention and control of endo and ectoparasites in orchard KVK, FARIDKOT(01639-253142) Iniy 26: Stancement of nutrition in daily diet through fermented and sprouted foods Iniy 10: Awareness and use of mineral mixture in dairy ration Iniy 04: Awareness and use of mineral mixture in dairy ration Iniy 05: Enhancement of nutrition in daily diet through fermented and sprouted foods Iniy 04: Integrated Farming System Iniy 04: Integrated Farming System Iniy 10: Integrated farming system Shiny 12: Improved cultivation of fruit crops Iniy 12: Maintenance, up keep and safe use of agricultural machinery KVK, FATEHGARHAHBOIT63-221217) Iniy 14: Prevariation of eco-friendly claming agents Iniy 10: Integrated Farming System Iniy 10: Integrated management of	
Iniy 47: Integrated Pest Management in <i>kharifc</i> rops withspecial emphasisonbiologicalandnon-chemicalmethods Iniy 10: 18: Poultry Farming Iniy 12: Techniques of harvesting and packing of pear toreduce post-harvestlosses Iniy 18: Personal hygiene and nutrition for adolescent girls Iniy 20: Techniques of harvesting and packing of pear toreduce post-harvestlosses Iniy 18: Personal hygiene and nutrition for adolescent girls Iniy 20: Techniques of harvesting and packing of pear toreduce post-harvestlosses Iniy 18: Personal hygiene and nutrition for adolescent girls Iniy 20: Techniques of harvesting and packing visual for transfer of technology Iniy 40: Raising of winter season annual flowers Iniy 01: Organic Farming Iniy 10: 10: Preparation of value added products using waste material and painting techniques Iniy 11: Happy seder technology for Crop Residue Management Iniy 12: Balanced feeding of dairy animals and prevention of zoonotic diseases Iniy 13: Integrated Pest and Disease Management in cotton Iniy 41: Distriss Management Iniy 21: Pesticide residue free basmati cultivation Iniy 22: Presticide residue free basmati cultivation Iniy 23: Prestriction and cortro of of and and ectoparasites in dairy animals Iniy 24: Wareness and use of mineral mixture in dairy ration Iniy 44: Nareness and use of mineral mixture in dairy ration Iniy 45: Enhancement of mutrition in dairy dive through fermented and sprouted foods Iniy 66: Raising of vegetable nursery in rainy season Iniy 67: Integrated Fearming System Iniy 10: Entergrated Farming System Iniy 10: Singanis and management of acto parsites in dairy animals Iniy 20: Improved cultivation of fruit crops Iniy 20: Prevention and contro of eado and ecto parsites in dairy animals Iniy 20: Improved cultivation of muter deficiencies in <i>kharifcrops</i> Iniy 14: Distributed Farming System Iniy 10: Singanis and management of antering agents Iniy 10: Distributed Farming System Iniy 10: Singanis and management of antering agents Iniy 20: Improved cultivation and prevention of zoonotic di	
In y 10-18:Poultry Farming In y 12: Techniques of harvesting and packing of pear toreduce post-harvestlosses In y 20: Integrated Participation of adolescent girls In y 20: Communication and prevention and control of endo and ecto parasites in dairy animals In y 20: Communication skills for transfer of technology In y 04: Raising of winter season annual flowers In y 10: 51: Dairy Farming In y 07: Organic Farming In y 07: Organic Farming In y 07: Organic Farming In y 07: Organic Farming In y 10: 14: Preparation of value added products using waste material and painting techniques In y 11: Happy seeder technology for Crop Residue Management In y 12: Balanced feeding of dairy animals and prevention of zoonotic diseases In y 11: Happy seeder technology for Crop Residue Management In y 12: Besticib residue free basmati cultivation In y 21: Pesticib residue free basmati cultivation In y 24: Pesticib residue free basmati cultivation In y 25: Improved cultivation of fruit crops In y 26: Prevention and control of endo and ectoparasites in dairy animals In y 28: Microirrigation, fortigation and weed management practices in orchard KVK, FARIDKOT (01639-253142) In y 3-7: Value addition to horticultural crops In y 40: Awareness and use of mineral mixture in dairy ration In y 95: Enhancement of nutrition in daily diet through fermented and sprouted foods In y 10: Hedriffication and management of insect pests and diseases of fruits and vegetables In y 10: Integrated Farming System In y 10: Integrated Farming System In y 10: Integrated Carming System In y 10: Integrated cultivation of fruit crops In y 21: Prevention and control of endo and ecto parasites in dairy animals In y 10: Integrated and gover out of an entite deficiencies in <i>kharifcrops</i> In y 12: Maintenance, up keep and safe use of agricultural machinery KVK, FATEIIGARH SAHIB(01763-221217) In y 05: Dictary management of fauriery farminy season In y 14: Pesticide residue free basmati cultivation In y 14: Pesticide residue free basm	
Iuly 12: Techniques of harvesting and packing of pear toreduce post-harvestlosses Iuly 18: Personal hygiene and nutrition for adolescent girls Iuly 20: Importance of vaccination and prevention and control of endo and ecto parasites in dairy animals KVK, BATHINDA(0164-2215619) Iuly 03: Communication skills for transfer of technology Iuly 04: Raising of winter season annual flowers Iuly 05: Dietary Farming Iuly 10: Organic Farming Iuly 11: Happy seeder technology for Crop Residue Management Iuly 12: Balanced feeding of dairy animals and prevention of zoonotic diseases Iuly 13: Integrated Pest and Disease Management in cotton Iuly 14: Distress Management Iuly 12: Balanced feeding of fairy animals and prevention of zoonotic diseases Iuly 13: Integrated Pest and Disease Management in cotton Iuly 14: Distress Management Iuly 12: Pesticide residue free basmati cultivation Iuly 23: Prevention and control of endo and ectoparasites in dairy animals Iuly 24: Prevention and control of endo and ectoparasites in other animals Iuly 24: Prevention and control of endo and ectoparasites in other animals Iuly 24: Avareness and use of mineral mixture in dairy ration Iuly 04: Avareness and use of mineral mixture in dairy ration Iuly 05: Enhancement of nutrition in daily diet through fermented and sprouted foods Iuly 06: Raising of vegetable nursery in rainy season Iuly 10: Identification and management of insect pests and diseases of fruits and vegetables Iuly 10: Identification and management of nutrient deficiencies in <i>kharif</i> (props Iuly 20: Improved cultivation fruit crops Iuly 20: Improved cultivation for ead set of agents Iuly 14: Distress Management of anomia Iuly 20: Improved cultivation fruit crops Iuly 21: Prevention and control of endo ace of parsites in dairy animals Iuly 20: Improved cultivation fruit crops Iuly 21: Maintenance, up keep and safe use of agricultural machinery Iuly 21: Maintenance, up keep and safe use of agricultural machinery Iuly 21: Maintenance, up keep and safe use of agricultural machinery Iuly 21:	
July 18: Personal hygiene and nutrition for adolescent girls Iuly 20:Importance of vaccination and prevention and control of endo and ecto parasites in dairy animals KVK, RATHINDA(0164-2215619) July 03: Communication skills for transfer of technology July 04: Raising of winter season annual flowers July 05: 13: Dairy Farming July 07: Organic Farming July 01: 14: Preparation of value added products using waste material and painting techniques July 10: 14: Preparation of value added products using waste material and painting techniques July 11: Happy seeder technology for Crop Residue Management July 12: Balanced feeding of dairy animals and prevention of zoonotic diseases July 14: Distress Management July 21: Pesticide residue free basmati cultivation July 25: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 26: Prevention and control of endo and ectoparasites in orchard KVK, FARIDKOT(01639-253142) July 30: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 04: Raising of vegetable nursery in rainy season July 12: Prevention and management of insect pests and diseases of fruits and vegetables July 10: Identification and management of nutrient deficiencies in <i>kharifero</i> ps July 10: July 05: Dietary management of outrient deficiencies in <i>kharifero</i> ps July 10: July 10: Jungnosis and management of nutrient deficiencies in <i>kharifero</i> ps July 11: Diagnosis and management of nutrient deficiencies in <i>kharifero</i> ps July 12: Prevention and cover find up animals July 14: Preparation of eco-finendly cleaning agents July 14: Preparation of eco-finendly cleaning agents July 14: Preparation of eco-finendly cleaning agents	
July 20:Importance of vaccination and prevention and control of endo and ecto parasites in dairy animals KVK, BATHINDA(0164-2215619) July 03: Communication skills for transfer of technology July 04: Raisingof winter season annual flowers July 07: Organic Farming July 104: Preparation of value added products using waste material and painting techniques July 104: The preparation of value added products using waste material and painting techniques July 104: The preparation of value added products using waste material and painting techniques July 11: Happy seeder technology for Crop Residue Management July 12: Balanced feeding of dairy animals and prevention of zoonotic diseases July 12: Stickes Management July 12: Posticide residue free basmai cultivation July 25: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 27: Value addition to horticultural crops July 04: Avareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 10: Identification and management of insect pests and diseases of fruits and vegetables July 10: Identification and management of insect pests and diseases of fruits and vegetables July 10: Identification of fortic crops July 10: Identification and mana	
KVK, BATHINDA(0164-2215619) Iuly 03: Communication skills for transfer of technology Iuly 05: Aising of winter season annual flowers Iuly 05: 13: Dairy Farming Iuly 05: Organic Farming Iuly 01: 41: Preparation of value added products using waste material and painting techniques Iuly 11: Iuly 12: Balanced feeding of dairy animals and prevention of zoonotic diseases Iuly 11: Bialpaced feeding of dairy animals and prevention of zoonotic diseases Iuly 13: Integrated Pest and Disease Management in cotton Iuly 12: Palanced feeding of dairy animals and prevention of zoonotic diseases Iuly 14: Preparation of value added ectoparasites in dairy animals Iuly 25: Improved cultivation of fruit crops Iuly 26: Prevention and control of endo and ectoparasites in dairy animals Iuly 26: Prevention and control of endo and ectoparasites in dairy animals Iuly 20: Iuly 28: Microirrigation, fertigation and weed management practices in orchard Iuly 28: Enhancement of nutriture in dairy ration Iuly 28: Microirrigation, fertigation and weed management of and sprouted foods Iuly 04: Awareness and use of mineral mixture in dairy ration Iuly 10: Iuly 12: Balancement of nutrient deficiencies in <i>khariferops</i> Iuly 05: Enhancement of nutrient deficiencies in <i>khariferops</i> Iuly 10: Iuly 21: Prevention and control of endo and ectoparasites in dairy animals Iuly 10: Identification and management of nutrient deficiencies in <i>khariferops</i> Iu	
Iufy 04: Raising of winter season annual flowers Inly 05-13: Dairy Farming Uby 07: Organic Farming Uby 101-14: Preparation of value added products using waste material and painting techniques Iuly 11: Happy seder technology for Crop Residue Management Uby 12: Balanced feeding of dairy animals and prevention of zoonotic diseases Uby 13: Integrated Pest and Disease Management in cotton Uby 14: Distress Management Uby 25: Prevention and control of endo and ectoparasites in dairy animals Uby 26: Prevention and control of endo and ectoparasites in orchard KVK, FARIDKOT(01639-253142) Uby 04: Awareness and use of mineral mixture in dairy ration Uby 05: Enhancement of nutrition in daily diet through fermented and sprouted foods Uby 04: Awareness and use of mineral mixture in dairy ration Uby 05: Integrated Farming System Uby 10: Integrated Farming System Uby 11: Diagnosis and management of nutrient deficiencies in <i>khariferops</i> Uby 12: Prevention and control of endo and ectoparasites in dairy animals Uby 20: Prevention and control of endo and ectoparasites in dairy animals Uby 12: Distary management of nutrient deficiencies in <i>khariferops</i> Uby 12: Distary management of nutrient deficiencies in <i>khariferops</i> Uby 10: Si Distary management of anurient deficiencies in <i>khariferops</i>	
Iufy 04: Raising of winter season annual flowers Inly 05-13: Dairy Farming Uby 07: Organic Farming Uby 101-14: Preparation of value added products using waste material and painting techniques Iuly 11: Happy seder technology for Crop Residue Management Uby 12: Balanced feeding of dairy animals and prevention of zoonotic diseases Iuly 13: Integrated Pest and Disease Management in cotton Iuly 14: Distress Management Iuly 12: Pesticide residue free basmati cultivation Iuly 25: Prevention and control of endo and ectoparasites in dairy animals July 40: Avareness and use of mineral mixture in dairy ration Iuly 04: Awareness and use of mineral mixture in dairy ration Iuly 04: Raising of vegetable nursery in rainy season Iuly 04: Identification and management of nutrient deficiencies in <i>khariferops</i> Iuly 12: Prevention and control of endo and ectoparasites in dairy animals Iuly 01: Integrated Farming System Iuly 12: Identification and management of nurrient deficiencies in <i>khariferops</i> Iuly 12: Prevention and control of endo and ectoparasites in dairy animals Iuly 12: Revention and control of endo and ectoparasites in dairy animals Iuly 12: Integrated Farming System Iuly 12: Revention and control of endo and ectoparasites in <i>khariferops</i> Iuly 12: Integrated prevention of fruit crops <td>July 03: Communication skills for transfer of technology</td>	July 03: Communication skills for transfer of technology
July 05-13: Dairy Farming July 07: Organic Farming July 07: Organic Farming July 07: Organic Farming July 10: 14: Preparation of value added products using waste material and painting techniques July 11: Happy seder technology for Crop Residue Management July 11: Happy seder technology for Crop Residue Management of zoonotic diseases July 12: Integrated Pest and Disease Management in cotton July 14: Distress Management Integrated Pest and Disease Management in cotton July 25: Integrated Pest and Disease Management practices in orchard July 25: Integrated Pest and Disease Management practices in orchard July 26: Prevention and control of endo and ectoparasites in dairy animals July 42: Sitroved cultivation of futi crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 10: Iterated Farming System July 12: Prevention and control of endo and ecto parasites in dairy animals July 10: Iterated Farming System July 12: Prevention and control of rease and ease of fruits and vegetables July 11: Diagnosis and management of nutrient deficiencies in <i>kharifcrops</i> July 12: Prevention and control of endo and ecto parasites in dairy animals July 20: Improved cultivation of fruit crops July 12: Prevention and control of endo and ecto parasites in dairy animals July 10: Sittentration of aconfriet crops July	July 04: Raisingof winter season annual flowers
July 07: Organic Farming July 10-14: Preparation of value added products using waste material and painting techniques July 10-14: Preparation of value added products using waste material and painting techniques July 12: Balanced feeding of dairy animals and prevention of zoonotic diseases July 13: Integrated Pest and Disease Management in cotton July 14: Distress Management July 25: Prevention and control of endo and ectoparasites in dairy animals July 26: Prevention and control of endo and ectoparasites in driv animals July 37: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 07: Integrated Farming System July 12: Improved cultivation of fruit crops July 10: Identification and management of insect pests and diseases of fruits and vegetables July 12: Prevention and control of endo and ecto parasites in <i>kharifcrops</i> July 12: Improved cultivation of fruit crops July 12: Prevention and control of endo and ecto parasites in <i>kharifcrops</i> July 12: Improved cultivation of fruit crops July 12: Maintenance, up keep a	
July 10-14: Preparation of value added products using waste material and painting techniques July 11:Happy seeder technology for Crop Residue Management July 12: Balanced feeding of dairy animals and prevention of zoonotic diseases July 13: Integrated Pest and Disease Management in cotton July 14: Distress Management July 21: Pesticide residue free basmati cultivation July 25: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 28: Microirrigation, fertigation and weed management practices in orchard KVK, FARIDKOT(01639-253142) July 3-7: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 06: Raising of vegetable nursery in rainy season July 07: Integrated Farming System July 10: Itentification and management of insect pests and diseases of fruits and vegetables July 11: Diagnosis and management of nutrient deficiencies in <i>kharifc</i> rops July 20: Improved cultivation of fruit crops July 05: Dietary management of nutrient deficiencies in <i>kharifc</i> rops July 10: Steature, up keep and safe use of agricultural machinery <u>KVK, FATEHGARH SAHIB(01763-221217)</u> July 10: Dietary management of nutrient deficiencies in <i>kharifc</i> rops July 11: Diagnosis and management of nutrient deficiencies in <i>kharifc</i> rops July 12: Clean milk production and prevention of zoonotic diseases July 12: Clean milk production and prevention of zoonotic diseases July 13: Raising of vegetable and Ilower nursery in rainy season July 14: Pesticide residue free basmati cultivation July 20: Sito hirring of agricultural machinery July 20: Bio-agents and non-chemical me	
July 11:Happy seeder technology for Crop Residue Management July 12: Balanced feeding of dairy animals and prevention of zoonotic diseases July 12: Bretgrated Pest and Disease Management in cotton July 14: Distress Management July 25: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 27: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 07: Integrated Farming System July 07: Integrated Farming System July 10: Identification and management of the discases of fuits and vegetables July 11: Prevention and control of endo and ect parasites in dairy animals July 07: Integrated Farming System July 10: Identification and management of insect pests and diseases of fuits and vegetables July 11: Diagnosis and management of nutrient deficiencies in <i>kharifc</i> rops July 12: Prevention and control of endo and ecto parasites in dairy animals July 20: Improved cultivation of fruit crops July 12: Diagnosis and management of insect pests and diseases of fuits and vegetables July 12: Prevention and control of endo and ecto parasites in dairy animals July 20: Improved cultivation of fruit crops July	
July 12: Balanced feeding of dairy animals and prevention of zoonotic diseases July 13: Integrated Pest and Disease Management in cotton July 14: Distress Management July 21: Pesticide residue free basmati cultivation July 26: Prevention and control of endo and ectoparasites in dairy animals July 26: Prevention and control of endo and ectoparasites in dairy animals July 26: Prevention and control of endo and ectoparasites in dairy animals July 27: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 06: Raising of vegetable nursery in rainy season July 07: Integrated Farming System July 10: Identification and management of insect pests and diseases of fruits and vegetables July 11: Diagnosis and management of insect pests and diseases of fruits and vegetables July 12: Prevention and control of endo and ecto parasites in dairy animals July 21: Maintenance, up keep and safe use of agricultural machinery <u>KVK, FATEHGARH SAHIB(01763-221217)</u> July 13: Dietary management of autrient deficiencies in <i>kharifero</i> ps July 14: Preparation of eco-friendly cleaning agents July 15: Clean milk production and prevention of zoonotic diseases July 14: Preparation of eco-friendly cleaning agents July 15: Clean milk production and prevention of zoonotic diseases July 14: Presticide residue free basmati cultivation July 14: Pesticide residue free basmati cultivation July 14: Pesticide residue free basmati cultivation July 28: Bio-agents and non-chemical methods for disease and pest control <u>KVK, FEROZEPUR(Mallewal)(01632-279517)</u> July 03: Custom hiring of agricultural machinery July 04: Presticide residue free basmati cultivation July 05: Nutritional security through Integrated Nutrition Garden July 05: Nutritional security through Integrated Nutrition Garden July 06: Drip Irrigation system in fruit plants July 14: Establishment of agro-processing units	
July 13: Integrated Pest and Disease Management in cotton July 14: Distress Management July 21: Pesticide residue free basmati cultivation July 25: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 28: Microirrigation, fertigation and weed management practices in orchard KVK, FARIDKOT(01639-253142) July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 05: Enhancement of nutrition in sect pests and diseases of fruits and vegetables July 10: Identification and management of insect pests and diseases of fruits and vegetables July 11: Diagnosis and management of insect pests in dairy animals July 20: Improved cultivation of fruit crops July 21: Prevention and control of endo and ecto parasites in dairy animals July 22: Improved cultivation of fruit crops July 20: Improved cultivation of fruit crops July 21: Prevention and control of aneate July 22: Maintenance, up keep and safe use of agricultural machinery KVK, FATEHGARH SAHIB(Ol763-221217) July 10: 14: Preparation of eco-friendly cleaning agents July 12: Prevention and management of anemia July 13: Raising of vegetable and flower nursery in rainy season	
July 14: Distress Management July 21: Pesticide residue free basmati cultivation July 25: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 28: Microirrigation, fertigation and weed management practices in orchard KVK, FARIDKOT(01639-253142) July 37: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 07: Integrated Farming System July 10: Identification and management of nutrient deficiencies in <i>kharifcrops</i> July 20: Improved cultivation of fruit crops July 21: Prevention and control of endo and ecto parasites in dairy animals July 22: Improved cultivation of fruit crops July 23: Improved cultivation of fruit crops July 24: Maintenance, up keep and safe use of agricultural machinery KVK, FATEHGARH SAHIB(01763-221217) July 05: Dietary management of ancmia July 10: 14: Preparation of eco-friendly cleaning agents July 13: Raising of vegetable and flower nursery in rainy season July 14: Pesticide residue free basmati cultivation July 14: Pesticide residue free basmati cultivation July 14: Pesticide residue free basmati cultivation	
July 21: Pesticide residue free basmati cultivation July 23: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 28: Microirrigation, fertigation and weed management practices in orchard KVK, FARIDKOT(01639-253142) July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 07: Integrated Farming System July 09: Integrated Farming System July 10: Identification and management of insect pests and diseases of fruits and vegetables July 10: Identification and control of endo and ecto parasites in dairy animals July 20: Improved cultivation of fruit crops July 20: Improved cultivation of fruit crops July 20: Dietary management of nutrient deficiencies in <i>kharifc</i> rops July 10: Jetary management of anemia July 10: Jetary management of anemia July 10: Jetary management of nutrient deficiencies in <i>kharifc</i> rops July 11: Diagnosis and management of nutrient deficiencies in <i>kharifc</i> rops July 12: Clean milk production and prevention of zoonotic diseases July 12: Clean milk production and prevention of zoonotic diseases July 13: Raising of vegetable and flower nursery in rainy season July 14: Pesticide residue free basmati cu	
July 25: Improved cultivation of fruit crops July 26: Prevention and control of endo and ectoparasites in dairy animals July 28:Microirrigation, fertigation and weed management practices in orchard KVK, FARIDKOT(01639-253142) July 3-7: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 06: Raising of vegetable nursery in rainy season July 07: Integrated Farming System July 10: Identification and management of insect pests and diseases of fruits and vegetables July 10: Identification and management of nutrient deficiencies in <i>kharific</i> rops July 21: Prevention and control of endo and ecto parasites in dairy animals July 20: Improved cultivation of fruit crops July 21: Maintenance, up keep and safe use of agricultural machinery KVK, FATEHGARH SAHIB(01763-221217) July 05: Dietary management of nutrient deficiencies in <i>kharifi</i> crops July 10: Jiagnosis and management of nutrient deficiencies in <i>kharifi</i> crops July 11: Diagnosis and management of nutrient deficiencies in <i>kharifi</i> crops July 12: Clean milk production and prevention of zoonotic diseases July 13: Raising of vegetable and flower nursery in rainy season July 14: Pesticide residue free basmati cultivation July 20: Bio-agents and non-chemical methods for disease and pest control KVK, FENCZEPUR(Mallewal)(01632-279517) July 03: Custom hiring of agricultural machinery July 04: Pesticide residue free basmati cultivation July 04: Pesticide residue free basmati cultivation July 05: Nutritional security through Integrated Nutrition Garden July 05: Nutritional security through Integrated Nutrition Garden July 06: Pinj Firigation system in fruit plants July 06: Pinj Firigation system in fruit plants July 06: Pinj Firigation system in fruit plants July 06: Hirt improved techniques for making pickle and <i>murabba</i> July 11-14: Enstablishinemt of agro-processing units	
July 26: Prevention and control of endo and ectoparasites in dairy animals July 28:Microirrigation, fertigation and weed management practices in orchard KVK, FARIDKOT(01639-253142) July 3-7: Value addition to horticultural crops July 04: Awareness and use of mineral mixture in dairy ration July 05: Enhancement of nutrition in daily diet through fermented and sprouted foods July 06: Raising of vegetable nursery in rainy season July 10: Identification and management of insect pests and diseases of fruits and vegetables July 11: Diagnosis and management of nutrient deficiencies in <i>kharifc</i> rops July 21: Prevention and control of endo and ecto parasites in dairy animals July 21: Improved cultivation of fruit crops July 21: Maintenance, up keep and safe use of agricultural machinery KVK, FATEHGARH SAHIB(01763-221217) July 10: 1-41: Preparation of eco-friendly cleaning agents July 11: Diagnosis and management of nutrient deficiencies in <i>kharif</i> crops July 12: Clean milk production and prevention of zoonotic diseases July 13: Raising of vegetable and flower nursery in rainy season July 14: Pesticide residue free basmati cultivation July 19: 5. Guestary management of dairy animals July 19: 6. Clean milk production and prevention of zoonotic diseases July 19: 7. Eeding and management of dairy animals <tr< td=""><td></td></tr<>
