

KVK Training Programmes in September, 2023

A number of training programmes for farmers and farm women will be held during **September, 2023** by Directorate of Extension Education. The details of these programmes are given below. Please contact the respective Training Centre of PAU for more information.

KVK, AMRITSAR (98723-54170)
September 13-14: Nutritional recipes from fermentation and sprouting September 14: Seed treatment- a preventive measure for seed borne diseases September 15: Rice straw compost for improved soil health September 19: Importance of balanced diet and preparation of low cost millet recipes September 20: Establishment of nutrition garden at household level September 21-29: Beekeeping as subsidiary occupation September 22: Integrated management of paddy straw with different techniques September 25-29: Healthy nursery production of vegetable crops September 26: Nursery production of winter annuals
KVK, BATHINDA (0164-2215619)
September 01: Protected cultivation and nursery raising techniques of vegetable crops September 04: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops September 06: Awareness regarding production of millets September 11-15: Mushroom cultivation as subsidiary occupation September 13-22: Embellishment of clothes using dyeing techniques September 14: Role of green manuring to enhance soil health September 15: Integrated Pest and Disease Management in <i>rabi</i> crops September 19: Importance of millets in diet and its value addition September 29: Seed production of <i>berseem</i>
KVK, FARIDKOT (01639-253142)
September 06: Jaggery making and preparation of value added products from it including vinegar September 08: Seed production of <i>berseem</i> September 11-15: Mushroom cultivation and processing September 12: Nutritional security through Integrated Nutrition Garden September 13: Efficient use of crop residue machinery September 14: Seed production of <i>berseem</i> September 20: Efficient use of crop residue machinery September 21: Protected cultivation and nursery raising techniques of vegetable crops September 25: Integrated Pest and Disease Management in <i>rabi</i> crops September 26: Improved cultivation techniques of <i>rabi</i> crops September 27: Efficient use of crop residue management machinery September 28: Rice residue management for improving soil health
KVK, FATEHGARH SAHIB (01763-221217)
September 04: Preventive/post-accident guidelines in agricultural operations September 05: Organic Farming of vegetables September 06: Seed plot technique for raising disease free potato seed September 11-15: Preparation of sweets at home September 18: Value addition to sugarcane, pulses and oil seeds September 20: Planning of nutrition garden and roof top garden in <i>peri</i> -urban and urban areas September 25: Seed production of <i>berseem</i> September 26: Improved cultivation practices for <i>rabi</i> crops September 27: Efficient use of different crop residue machinery September 28: Rice residue management technologies for improving soil health September 29: New cultivation technologies of vegetable crops
KVK, FEROPUR (Mallewal) (01632-279517)
September 05: Efficient use of crop residue machinery September 11-15: Techniques for preparing environment friendly cleaning products September 14: Efficient use of crop residue machinery September 18: Dietary management for the prevention of anemia September 20: Seed plot technique for raising disease free potato seed

<p>September 22: Integrated Pest and Disease Management in <i>rabi</i> crops</p> <p>September 27: Protected cultivation and nursery raising techniques of vegetable crops</p> <p>September 28: Rice seed production (PR-126)</p> <p>September 29: Improved cultivation practices of <i>rabi</i> crops</p>
KVK, GURDASPUR (01874-220743)
<p>September 01: Improved cultivation of autumn sugarcane</p> <p>September 06: Personal hygiene and nutrition for adolescent girls</p> <p>September 08: Efficient use of crop residue machinery</p> <p>September 11-15: Mushroom production</p> <p>September 15: Integrated Nutrient Management in <i>rabi</i> crops</p> <p>September 20: Silage making for dairy animals during lean period</p> <p>September 21: Efficient use of crop residue management machinery</p> <p>September 27: Computation of balanced ration for dairy animals</p>
KVK, HOSHIARPUR (Bahawal) (98157-51900)
<p>September 04: Small scale agro industry - a way to become an entrepreneur</p> <p>September 14: Nutritional security through Integrated Nutrition Garden</p> <p>September 15: Technologies for paddy residue management</p> <p>September 20: Cultivation of peas and potato</p> <p>September 21: Improved plant protection practices in <i>rabi</i> crops</p> <p>September 27: Improved cultivation practices of vegetable crops</p> <p>September 28: Custom hiring of agricultural machinery</p> <p>September 29: Green fodder production round the year</p>
KVK, JALANDHAR (Nurmahal) (01826-292053)
<p>September 01: Establishment of nutrition garden in urban and <i>peri</i>-urban areas</p> <p>September 04: Nutritional recipes for young children and pregnant/ lactating mothers</p> <p>September 05-13: Poultry Farming</p> <p>September 06: Dietary cure and prevention for anemia</p> <p>September 11-15: Mushroom cultivation</p> <p>September 12: Efficient utilization of non-conventional energy gadgets</p> <p>September 14: Management of insect pests and diseases of major crops</p> <p>September 18-22: Organic Farming</p> <p>September 19: Improved cultivation practices of <i>Rabi</i> crops</p> <p>September 20: Efficient use of crop residue management machinery</p> <p>September 21: Production technologies of root and leafy vegetable crops</p> <p>September 25: Recommended practices for clean milk production</p> <p>September 27: Recommended practices for clean milk production</p> <p>September 28: Efficient use of crop residue machinery</p>
KVK, KAPURTHALA (01822-233056)
<p>September 01: Recommended machinery for sowing of <i>rabi</i> crops</p> <p>September 04: Balanced diet for different age groups</p> <p>September 05: Maintenance, upkeep and safe use of agricultural machinery</p> <p>September 06: Balanced diet for all age groups</p> <p>September 11-15: Mushroom cultivation as subsidiary occupation</p> <p>September 12: Integrated Farming System</p> <p>September 14: Protected cultivation and nursery raising techniques of vegetable crops</p> <p>September 15: Rice residue management technologies for improving soil health</p> <p>September 19: New cultivation technologies of vegetable crops</p>
KVK, LUDHIANA (Samrala) (01628-261597)
<p>September 04: Improved cultivation practices of <i>rabi</i> oilseeds</p> <p>September 05: Dietary management for lifestyle diseases</p> <p>September 08: Balanced diet for different age groups</p> <p>September 11-15: Bee keeping- a lucrative subsidiary occupation</p> <p>September 12: Efficient use of agricultural machinery and its custom hiring</p> <p>September 13: Seed plot technique for raising disease free potato seed</p> <p>September 15: Awareness about immunity boosting foods</p>

<p>September 18-22: Quality seed production techniques of crops (cereals, oilseeds and pulses)</p> <p>September 19: Nutritional security through Integrated Nutrition Garden</p> <p>September 20: Crop Residue Management technologies for improving soil health</p> <p>September 21: Food safety and techniques to check food adulteration</p> <p>September 22: Seed treatment as a preventive measure for seed-borne diseases in wheat crop</p> <p>September 25-29: Mushroom cultivation and processing</p> <p>September 26: Efficient use of crop residue management machinery</p>
KVK, MANSA (01652-280843)
<p>September 05: Feeding and management for poultry birds</p> <p>September 06: Efficient use of crop residue machinery</p> <p>September 08: Processing of milk at domestic level</p> <p>September 11-15: Mushroom cultivation: a lucrative subsidiary occupation</p> <p>September 14: Production technologies of root and leafy vegetable crops</p> <p>September 15: Management of rusts and karnal bunt in wheat</p> <p>September 18-22: Pig Farming</p> <p>September 19: Baking and confectionary products</p> <p>September 21: Improved cultivation of fruit crops</p> <p>September 22: Rice residue management technologies for improving soil health</p> <p>September 25-29: Beekeeping- a lucrative subsidiary occupation</p>
KVK, MOGA (Budh Singh wala) (81465-00942)
<p>September 06: Production technologies of <i>rabi</i> oilseeds and pulses</p> <p>September 08: Processing of honey (Heating, filtration, packaging and marketing)</p> <p>September 11-15: Mushroom cultivation: a lucrative subsidiary occupation</p> <p>September 12: Improved cultivation techniques of <i>rabi</i> crops</p> <p>September 13: Milling, grading and packaging of basmati rice</p> <p>September 18-22: Hybrid seed production in vegetables</p> <p>September 19: Protected cultivation and nursery raising techniques</p> <p>September 22: Establishment of nutrition garden in urban and <i>peri</i>-urban areas</p> <p>September 28: Technological intervention in crop residue management</p>
KVK, PATHANKOT (98762-95717)
<p>September 01: Cultivation techniques of garlic and onion</p> <p>September 05: Low cost nutritious recipes using millets</p> <p>September 06: Nutrition gardening in rural areas</p> <p>September 12: Seasonal flowers production</p> <p>September 13: Role of organic farming in cultivation of vegetables</p> <p>September 14: Nutritional recommendations for young children and pregnant/ lactating women</p> <p>September 15: Planning of nutrition garden in urban and <i>peri</i>-urban area</p> <p>September 20: Improved cultivation practices of <i>rabi</i> oilseed/pulse crops</p> <p>September 22: Silage making for dairy animals during lean period</p> <p>September 27: Computation and preparation of balance ration for the livestock</p> <p>September 28: Cultivation of recommended varieties of <i>rabi</i> crops</p>
KVK, PATIALA (Rauni) (94642-10460)
<p>September 01: Establishment of kitchen garden in <i>peri</i>-urban areas</p> <p>September 04: Care and management of newly born calves</p> <p>September 05: Nutritious recipes and creative activities for pre-school children</p> <p>September 06: Nutritional Kitchen Gardening</p> <p>September 08: Cultivation of flowers</p> <p>September 13: Insect-pest management in millets</p> <p>September 15: Raising of vegetable and fruit nursery raising</p> <p>September 27- October 03: Entrepreneurship development programme in mushroom cultivation</p> <p>September 28: Adequate management of paddy stubble by use of crop residue machinery</p> <p>September 29: Improved practices for clean milk production</p>
KVK, ROPAR (01881-220460)

<p>September 07: Green fodder production round the year</p> <p>September 08: Protected cultivation and nursery raising techniques of vegetable crops</p> <p>September 11-15: Preparation of sweets at domestic level for festive season</p> <p>September 13: Seed plot technique for raising disease free potato seed</p> <p>September 15: Silage making</p> <p>September 18-22: Mushroom cultivation and its value addition</p> <p>September 19-23: Beekeeping- a lucrative subsidiary occupation</p> <p>September 20: Rice residue management technologies for improving soil health</p> <p>September 21: Cultivation of <i>rabi</i> crops in <i>Poplar</i> and <i>Eucalyptus</i></p> <p>September 22: Improved cultivation practices of <i>Rabi</i> cereals/oilseeds/pulse crops</p> <p>September 25-29: Organic Farming and vermicompost production</p> <p>September 27: Raising of winter season annual flowers</p>
KVK, SANGRUR (Kheri) (01672-245320)
<p>September 05: Protected cultivation and nursery raising techniques of vegetable crops</p> <p>September 06: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops</p> <p>September 27: Efficient use of crop residue management machinery</p>
KVK, SHAHEED BHAGAT SINGH NAGAR (Langroya) (01823-250652)
<p>September 04: Improved cultivation practices of <i>rabi</i> cereals/ oilseeds/ pulse crops</p> <p>September 05: Efficient use of crop residue machinery</p> <p>September 06: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops</p> <p>September 08: Training and pruning of fruit crops</p> <p>September 11-15: Mushroom cultivation as subsidiary occupation</p> <p>September 12: Preventive/post-accident guidelines in agricultural operations</p> <p>September 19: Soilless model for vegetable kitchen garden</p> <p>September 20: Technology for crop residue management</p> <p>September 26: Seed production of onion</p> <p>September 29: Improved cultivation techniques of <i>rabi</i> crops</p>
KVK , SRI MUKTSAR SAHIB (Goneana) (94630-22203)
<p>September 01: Improved cultivation practices of <i>rabi</i> oilseeds/pulse crops</p> <p>September 05: Integrated Pest and Disease Management in <i>rabi</i> crops</p> <p>September 11-19: Mushroom cultivation and processing</p> <p>September 29: Improved cultivation techniques of <i>rabi</i> crops</p>
SKILL DEVELOPMENT CENTRE (0161-2401960 Ext 261)
<p>September 25-29: Cultivation of winter varieties of mushrooms</p>
Compiled by: Dr Inderpreet Kaur Boparai and Dr Manoj Sharma
